

KAVEH SAMIMI

SKILLS

Programming: SQL, Python, C++, Java, Apex, SDLC

Tools/Applications: Snowflake, Tableau, Tableau Prep (Data Wrangling), Excel, Salesforce, Agile, SQL Server, GitHub, Linux, SQL Server (SSIS)

PROJECTS:

ENTERPRISE BD FORECASTING DASHBOARD – SNOWFLAKE, SQL, TABLEAU

- Collected and analyzed five years of data from Snowflake, identifying key metrics leading to increased requisitions.
- Presented findings to leadership and developed an enterprise-level dashboard that allow executives to make data-driven decisions and predict/augment business outcomes.

RECRUITER SUCCESS KPI – SNOWFLAKE, SQL, PYTHON,

- Analyzed 1,600,000+ activity records to help develop a new company KPI by identifying success trends.
- Presented new KPI and data-story to senior leaders and received an approval for implementation.

OPERATIONS ENTERPRISE DASHBOARD – SNOWFLAKE, SQL, PYTHON, TABLEAU

- Consolidated 23 million+ activity records from Snowflake into a Tableau dashboard to analyze trends, show YOY performance, and current operations activity. This dashboard has empowered Ops leaders to have a live view on their business and make data-driven decisions.

ROI ANALYSIS FOR NEW SOURCING TECHNOLOGY – SNOWFLAKE, SQL, PYTHON

- Launched large pilot in an attempt to use new technology to decrease sourcing times and increase quality of candidates.
- Consolidated, and analyzed pilot data to prepare a data-story for leadership to adopt the new technology.
